GBW 120 A Pre-WINDING MACHINE

精密络筒机

GBW-120A 高速纱筒络纱机具有高性能、高产量特性

GBW-120A High-speed yarn canister has high performance and high capacity

主要优点 MAIN CHARACTERISTICS

- 与同类机比，较少机台数目达到等产量
Compared with similar machines, it can reach same capacity with less machines.
- 设计完美的纱筒，甚至用与卷绕6/12D尼龙也同样表现出色
Yarn canister with perfect design is outstanding same as Nylon(6/12D)
- 大量减少占地面积
Obviously saving up the occupation area.
- 该机即时张力调整，电脑成形恒络距，定长定重，自动找边断丝满管自停功能及半管接头达到直径自停功能。
The machine has the function of instant tension adjustment, computer forming constant distance, fixed length and weight, automatic edge breaking full pipe self-stop function and half pipe joint diameter self-stop function.

ZHEJIANG GUOXING MACHINERY CO.,LTD

No.169 West Puxiyanhe Road ,Sanqiao Industrial ,Yongjia ,Wenzhou City, Zhejiang Province,CHINA

设备型号Model of equipment	测量单位 Unit of measurement	GBW-120A 精密络筒机 Winder machine
机器规格 Norm of machine		
机器结构Structure of machine		立式双面单层Vertical double-sided single-layer
节数 Number of node	节Node	1-6
每节锭数Number of fingot per node	位Position	16
控制柜尺寸(长*宽*高)Out-form dimension(L*W*H)	mm	350*500*1520
设备总重量Total weight of equipment	Kg	1350(6节)
锭子Spindle		
锭数Number of spindle	锭Spindle	16-96
锭子类型number of spindle	mm	固定式直行/固定式锥形fixed straight type/fixed conic type
络距distance between spindles		185
产生速度 produe speed	米/分 M/min	1600m/min
电气和功率Electrical and power		
络筒成形Winding molding		
每锭卷取马达功率Each tablettake-up motor power	W	280W/Spindle
